

Construction Notice—September 24, 2004

Construction crews will begin work on a sewer line this Monday, September 27, 2004, on Plymouth Road from Country Club Boulevard south to the end of Plymouth Road.

Parking will be restricted, beginning Tuesday, September 28. Cars must not be parked on Plymouth Road between 6:00 AM and 6:00 PM. Access may be restricted for a short time at each driveway as the work progresses.

The work will require about two weeks to complete.

The new trunk sewer line will extend from Orange Street westerly along Country Club Boulevard to the City's Smith Canal Pump Station. Smaller pipelines will be constructed on portions of Orange Street and Mission Avenue to convey local flows to the Country Club Trunk line. This project is not a part of the Country Club Sanitation District.

Overall construction of the new trunk is expected to take about seven months. We will keep you informed of construction activities throughout the process.

Feel free to call the Hotline at (209) 464-4350 during normal business hours and ask for Judith Buethe. Or, send email to Hotline@buethepr.com. Should you have an urgent need to contact the project team evenings or weekends, call Judith's cell phone at (209) 969-7722.

Thank you for your patience during construction. We apologize for any inconveniences.
